## 7 Reasons to Participate

in the 9<sup>th</sup> Poultry & Livestock Bangladesh International Expo 2026

1. The 9th Poultry & Livestock Bangladesh Expo 2026 stands as the country's oldest and largest international exhibition dedicated to the poultry, livestock, and animal husbandry industry. For nine consecutive years, it has served as the premier platform bringing together global buyers, suppliers, and industry leaders, showcasing innovations, technologies, and opportunities that drive the sector forward.
2. By 2026, annual per capita consumption has increased to 10.4 kilograms of poultry meat and 6.3 kilograms of eggs (around 134 pieces), marking a clear upward trend from 2025 levels. This sustained expansion underscores the poultry industry's vital role in meeting the country's protein needs and highlights its growing importance within Bangladesh's food security and agribusiness landscape.
3. The achievement in Bangladesh's poultry sub-sector is striking in 2026, driven by the rapid expansion of the poultry population and sustained demand growth. According to BPICC, investment that stood at just BDT 1,500 crore in the 1980s has now soared to BDT 39,000 crore, underscoring the sector's transformation into a powerhouse of agribusiness. This remarkable leap highlights poultry as one of the most dynamic engines of growth within Bangladesh's food and agriculture industry.

4. By 2026, Bangladesh's poultry industry is on the verge of self-sufficiency, fueled by rising production and strong export potential. The sector is set to attract BDT 50 billion in fresh investment within the next two years, positioning it as a dynamic engine of growth and a gateway to global markets.
5. In 2026, Bangladesh's commercial poultry sector is expanding at an impressive 15% annual growth rate, with investment set to double over the next decade. Today, more than 1 million entrepreneurs and 8 million workers drive this industry, producing a staggering 10.22 billion eggs and 1.46 million tons of poultry meat each year. This scale of production cements poultry as one of the country's most dynamic engines of agribusiness growth and food security.
6. By FY 2025-26, Bangladesh's livestock population has surged past 46 crores, cementing the nation's self-sufficiency in meat production. This growth enables the country to meet a per capita demand of over 850 grams of meat, underscoring the livestock sector's pivotal role in ensuring food security and driving agribusiness expansion.
7. Join the 9th Poultry & Livestock Bangladesh Expo 2026—the nation's largest platform for the industry. Connect directly with buyers, explore new opportunities, and drive growth in Bangladesh's thriving poultry and livestock market.

## EVENT PROFILE

'CEMS Global' brings to you '9th POULTRY & LIVESTOCK BANGLADESH INTERNATIONAL EXPO 2026' scheduled to be held from 7 – 9 May 2026 will be prestigious showcases of the Poultry, Dairy, Livestock & Aquaculture based products and service industry. Poultry is one of the most important sectors of agriculture in Bangladesh for maintaining the need of protein and nutrition. It was in 1995 that the poultry industry started in an organized manner in Bangladesh. In just two decades years the industry has seen exponential growth. There are over a hundred thousand poultry farms, small and large, across the country. Alongside poultry, the fisheries and livestock sectors are two major pillars of Bangladesh's economy, and more than 10 million people directly depend on these sectors for their livelihoods. These sectors are important for food, nutrition, income, export earning, etc. '9th POULTRY & LIVESTOCK BANGLADESH INTERNATIONAL EXPO 2026' will reveal to the country, the rapid developments in the industry as well as the new technology components.

## Why Bangladesh

Bangladesh's poultry and livestock sector has rapidly evolved into one of the country's most dynamic agribusiness industries, contributing significantly to food security and rural employment. Investment in poultry has surged from just BDT 1,500 crore in the 1980s to over BDT 39,000 crore by 2026, reflecting exponential growth. Commercial farms are expanding at a 15% annual rate, with more than 1 million entrepreneurs and 8 million workers producing over 10 billion eggs and 1.4 million tons of poultry meat each year. The livestock population has exceeded 46 crores, making Bangladesh self-sufficient in meat production and ensuring per capita availability of more than 850 grams annually. Rising demand is driving adoption of advanced technologies, feed, and veterinary services, while export potential is opening new global market opportunities. International suppliers increasingly view Bangladesh as a lucrative destination, supported by low-cost, high-quality production, a skilled workforce, and strategic trade advantages. Together, these strengths position Bangladesh's poultry and livestock industry as a powerful engine of growth and a compelling investment frontier in South Asia.

## PROFILE OF EXHIBITS

Animal Biotechnology | Animal Farming consultants | Animal Husbandry | Animal Nutrition / Health Products | Aqua Production Equipment and Supplies | Aquaculture & Livestock Supplies | Biotechnology| Breeder Farms & System | Broiler Farms & Equipment | Cleaning & Disinfection Chemicals & Equipment | Cleaning & Hygiene Equipment & Products | Dairy Equipment | Dairy Technology & Equipment Manufacturer / Exporters/Traders | Egg Collection & Management Solutions |
