

POST SHOW REPORT

25th POWER BANGLADESH INT'L EXPO 2023

Venue: International Convention City Bashundhara
Dhaka, Bangladesh

25TH **POWER**
BANGLADESH
2023

With the great successes of CEMS-Global USA's 'POWER series of Exhibitions' in South & South-East Asia, CEMS-Global, having a reputation as a Multinational Exhibition organizer and bringing the best trade shows on the most important Industry topics for over 24 years now, organized the "25th Power Bangladesh Int'l Expo" in Dhaka. This Expo did bring all important stakeholders of the Power & Energy Industry of Bangladesh under one roof and was once again Bangladesh's premier International exhibition on Power Generation & Transmission, PV Power, Energy and Renewable Energy. This Expo brought together the Power Engineering Industry, leading Manufacturers and Distributors / Representatives from all over the world to Bangladesh. It was a perfect B2B platform for the entire Power & Energy Industry of Bangladesh including Bangladeshi Industry and stakeholders who attended and got the opportunity to see the latest technologies and innovations in the Power Generation and Energy sector.

Bangladesh is one of the fastest growing economies in South Asia. In fiscal year 2021–2022, Bangladesh registered a GDP growth rate of 7.2%. The Government of Bangladesh now promises to achieve the status of a 'Middle-income Country' by 2031 and that of a 'High Income Country' by 2041. Power and Electricity consumption has increased in line with the rise in capacity. Domestic and industrial sectors are the key power demand drivers in the country. The industrial sector has witnessed impressive growth in the last six to seven years. To meet the fast growth in demand, the installed power generation capacities need to be increased to 24GW and 39GW by 2021 and 2030 respectively. To achieve this, a substantial amount of investment would be needed across the entire power sector, around USD 16 billion between 2016-2021. The Govt. of Bangladesh has shown a strong commitment to attract private sector investments and provide an investment-friendly environment by providing various tax and other incentives.

Bangladesh's target of reaching 30% renewable energy by 2030 and 40% by 2041 is attracting interest from foreign investors, who are gradually beginning to view the country's renewable energy sector as an attractive place for investment. We can expect electric power consumption per capita in Bangladesh to increase significantly as demand is expected to increase in line with GDP growth. With the recent Power System Master Plan, Bangladesh aims to reach 4.1 GW of renewable capacity by 2030. Solar and wind will be the key focus areas for future capacity addition, which shall account for about 50% and 40% of the 2,896 MW of RE-based installed capacity by 2021.

INAUGURATION CEREMONY & EVENT GLIMPSE

CEMS-Global USA and CEMS Bangladesh's comprehensive biggest B2B exhibitions for the entire infrastructure Development Industry of Bangladesh at ICCB Dhaka. The Exhibitions were inaugurated by Mr. Md. Anisur Rahman Miah, BPAA - Chairman (Secretary), of Rajdhani Unnayan Katripakkha (RAJUK). Ms. Meherun N. Islam, President & Group Managing Director of CEMS-Global USA & Asia-Pacific was the host of the Ceremony.

Special guests present were Mr. Md. Abdur Rahim Khan - Additional Secretary (Export), Export Wing of Ministry of Commerce; Mr. Mohammad Hossain - Director General, Power Cell, Power Division of the Ministry of Power, Energy and Mineral Resources; Dr. Md. Mizanur Rahman; Deputy Managing Director (RP & D) of Dhaka WASA and Mr. Syed Ershad Ahmed - President, American Chamber Of Commerce In Bangladesh (AmCham).
