7 Reasons to Participate

in the 17th Meditex Bangladesh 2026

1. The **17th Meditex Bangladesh 2026** is the oldest, largest, and most prestigious international exhibition in Bangladesh. For the past 16 years, it has served the Medical Equipment, Surgical Instruments, Healthcare, and Hospital Equipment and supplies Industries of Bangladesh. As the sector's flagship event, it continues to bring together global innovators, manufacturers, and healthcare leaders under one roof.
2. Bangladesh has made remarkable progress in transforming its healthcare sector, significantly reducing communicable diseases, childhood mortality, maternal mortality, and increasing immunization rates. This evolution underscores a maturing and increasingly investment-ready health infrastructure.
3. Bangladesh's Medical Sector remains one of the fastest-growing in the world. Between recent fiscal years, the sector recorded an impressive annual growth rate of 14.6 percent. As of January 2025, Bangladesh's healthcare market stands at USD 14 billion—including hospitals, clinics, diagnostics, laboratories, pharmaceuticals (including APIs), and medical equipment—with the potential to reach USD 23 billion by 2030. This positions Bangladesh as a significant destination for Foreign Direct Investment (FDI), making healthcare a social priority and smart economic strategy as the country aims to become the world's 25th largest economy.

4. The Bangladesh Medical Equipment and Devices Market is currently valued at USD 442 million, with a robust CAGR of 13 percent. It is projected to reach USD 820 million by 2025, positioning Bangladesh as an attractive destination for manufacturers, distributors, and investors in medical technologies and devices.
5. Over the past two decades, Bangladesh has witnessed a healthcare infrastructure boom: private hospitals quadrupled from 1,125 to 4,452; clinics tripled from 411 to 1,397; dental clinics expanded nearly sevenfold from 122 to 839; and diagnostic centers grew six-fold from 1,778 to 10,291. This robust growth reflects the deepening demand for medical equipment and services nationwide.
6. Bangladesh is rapidly emerging as a high-potential destination for healthcare investment, fueled by robust economic growth, a \$19.4B market, 100% FDI allowance, and a fast-growing Middle and Affluent Class (MAC). With over 176 million mobile users and a rising demand for specialized and digital care, the country offers unmatched potential in med-tech and health innovation. Bangladesh is exceptionally poised to deliver innovative healthcare solutions that generate impactful results and strong returns.
7. Participate in the **17th Meditex Bangladesh 2026**. Meet and connect with thousands of potential buyers, distributors, and healthcare stakeholders through this premier Expo. Expand your market reach, showcase innovations, and capitalize on the booming healthcare industry of Bangladesh.

EVENT PROFILE

After the resounding success of its previous 16 editions, the “**17th Meditex Bangladesh 2026**” is set to return as Bangladesh’s largest and only international exhibition dedicated to Medical Equipment, Surgical Instruments, Healthcare, Hospital Equipment & Supplies. Like every year, this prestigious event will once again bring together the entire medical and healthcare ecosystem under one roof, making it the most exclusive and impactful platform for showcasing the latest innovations and breakthrough technologies shaping the future of the industry in Bangladesh.

The “**17th Meditex Bangladesh 2026**” will be the ultimate meeting hub for local and international Buyers and Suppliers of Medical, Surgical, Healthcare, Hospital Equipment, and Pharmaceutical Products. The exhibition will provide an engaging, interactive environment where exhibitors can generate leads, forge new partnerships, and strengthen their market presence, while giving visitors access to a comprehensive range of solutions, all in one place. With its proven ability to draw high-level decision-makers and professionals, the event continues to elevate industry standards, visibility, and innovation.

As Bangladesh’s demand for quality healthcare continues to rise, this exhibition plays a crucial role in advancing the nation's healthcare sector. With a growing population of over 167 million people, a density of 1,112 individuals per square kilometer, and a population growth rate of 1.01%, the country presents immense opportunities for medical businesses and investors. Key sectors such as medical training, ambulance services, elderly care, medical equipment supplies, and rural health infrastructure are ripe for innovation and investment.

With expansive hospital development projects and significant public and private sector investments currently underway, Bangladesh offers a booming market for global medical equipment manufacturers and

service providers. The **17th Meditex Bangladesh 2026** is the gateway to connect, collaborate, and capitalize on the future of healthcare in one of the world's most promising emerging markets.

IN FIGURES

The Bangladesh Medical Equipment and Devices Sector is currently valued at USD 442 million, demonstrating a robust Compound Annual Growth Rate (CAGR) of 13 percent. This sector is projected to nearly double, reaching USD 820 million by 2025, positioning Bangladesh as a highly attractive destination for investors. Bangladesh’s healthcare sector is expanding rapidly, with private hospitals, clinics, and diagnostics centers growing nearly sixfold in two decades, driven by rising demand, population growth, and greater health awareness. The \$19.4B medical market is further boosted by 85% import dependency in equipment, creating strong potential for local manufacturing and global partnerships. With tax incentives, raw material import waivers, and access to 52 preferential export markets, Bangladesh offers a dynamic, investor-friendly environment for healthcare and med-tech growth.

The Expanded Programme on Immunisation (EPI) in Bangladesh stands as a significant public health milestone, demonstrating remarkable advancements over the past twenty years. During this time, the number of registered private hospitals has increased four-fold, expanding from 1,125 to 4,452. Clinics have achieved a three-fold rise, growing from 411 to 1,397; dental clinics have marked nearly a seven-fold surge, from 122 to 839; and diagnostic centers have attained remarkable six-fold growth, expanding from 1,778 to an outstanding 10,291.
