## 7 Reasons to Participate

in the 12<sup>th</sup> Pharma Bangladesh 2026 Int'l Expo

1. 12<sup>th</sup> Pharma Bangladesh 2026 is an extensive global trade show that showcases pharmaceuticals, active ingredients, raw materials, processing and packaging machinery, equipment, and associated services for the pharmaceutical industry worldwide. This premier platform brings together industry leaders, innovators, and buyers under one roof to explore the latest advancements and foster strategic partnerships.
2. Pharma Bangladesh is the largest and most influential international exhibition of its kind in the country. For over a decade, it has consistently served the pharmaceutical industry of Bangladesh by promoting innovation, investment, and international collaboration. The event plays a vital role in accelerating the country's pharmaceutical growth and strengthening its global presence.
3. This industry now forms the backbone of the country's economy and fulfills an impressive 97% of Bangladesh's pharmaceutical demand, according to the Bangladesh Investment Development Authority (BIDA). The sector continues to evolve rapidly, backed by strong domestic capabilities and policy support.

4. Bangladesh meets 98% of its domestic medicinal demand with a pharmaceutical market valued at US\$6 billion, importing approximately US\$1.3 billion worth of APIs annually and exporting to over 150 destinations. To reduce its reliance on imported APIs, the government is prioritizing local API manufacturing, and with Asia's API market projected to grow at a 9% CAGR until 2027, Bangladesh is well-positioned to integrate into regional supply chains through cost advantages, policy support, and expanding capacity.
5. The pharmaceutical industry is currently exporting to more than 150 countries globally and has made significant inroads into regulated markets, including the USA and Europe. Bangladeshi medicines have reached markets across Africa, Southeast Asia, and even entered highly regulated regions such as the United States and Europe. This global expansion showcases the industry's compliance with international standards and its capability to compete on a world stage.
6. All the associated factors are in favor of the continued rapid growth of Bangladesh's pharmaceutical market, and it is expected to grow with a CAGR of around 15–16% during the 2026–2030 period. The share of generic drugs is projected to remain above 85% beyond 2025, which will further strengthen the dominance of local pharmaceutical companies in the market. This growth will be supported by increasing healthcare demand, government support, expansion of API production, and rising export opportunities.
7. Participate in the 12<sup>th</sup> Pharma Bangladesh 2026 International Expo. Meet and connect with potential buyers, partners, and industry stakeholders through this vibrant and high-impact platform. Discover new opportunities and be a part of Bangladesh's journey to becoming a global pharmaceutical powerhouse.

## EVENT PROFILE

After the resounding success of previous editions of **'Pharma Bangladesh'**, CEMS-Global USA, in collaboration with CEMS Bangladesh, proudly presents the region's most prestigious and extensive international exhibition— **"12<sup>th</sup> Pharma Bangladesh 2026 International Expo"**. This landmark event will serve as the ultimate platform for showcasing pharmaceutical raw materials, active ingredients, processing and packaging machinery, equipment, and related services essential to the growth and advancement of the pharmaceutical sector.

The **"12<sup>th</sup> Pharma Bangladesh 2026 International Expo"** will be Bangladesh's largest Pharmaceutical Machinery & Technology Exhibition, serving as a one-stop platform to highlight the most recent advancements and innovations that are shaping the future of the pharmaceutical industry. Concurrent with this event, the **"17th Meditex Bangladesh 2026 International Expo"** will also be held, providing greater synergy and cross-sector opportunities for stakeholders in both the pharma and medical sectors.

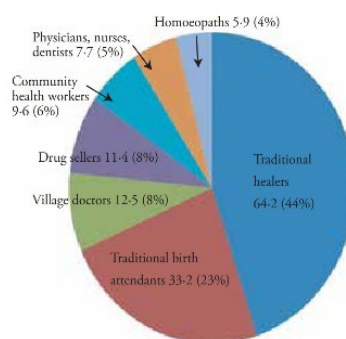

This edition of the Pharma Bangladesh Expo will feature and demonstrate a broad spectrum of cutting-edge machinery, equipment, and technology from around the world, designed to meet the evolving needs of Bangladesh's rapidly expanding pharmaceutical industry. As the sector grows at a remarkable pace and actively explores global markets, it is poised to become one of the country's most significant contributors to international trade revenue.

The **"12<sup>th</sup> Pharma Bangladesh 2026 International Expo"** will serve as a dynamic B2B networking platform, offering unmatched opportunities for buyers and sellers of pharmaceutical plants, machinery, and equipment. It will also provide a highly interactive space for exhibitors to generate business, showcase innovations, and engage with key decision-makers through live demonstrations, technology exhibits, and strategic dialogues—focused, high-level discussions between industry leaders, policymakers, and stakeholders aimed at addressing challenges, exploring opportunities, and aligning the sector's growth with global standards.

## IN FIGURES

Over the last decade, Bangladesh's pharmaceutical industry has grown substantially, contributing 1.83% to the country's GDP. At present, Bangladesh produces more than 450 generic drugs under 5,300 well-known brands and meets 4% of the nation's requirement for anti-cancer medications. According to the Director General of Drug Administration (DGDA), the pharmaceutical sector encompasses 3,657 registered generic allopathic drugs, 2,400 registered homeopathic drugs, 6,389 registered unani drugs, and 4,025 registered ayurvedic drugs. Approximately 71% of pharmaceutical sales are attributed to the generic medication market. There are over 150 enterprises engaged in formulation production, with 30 of them involved in exports.

## PROFILE OF EXHIBITS

<ul style="list-style-type: none"><li>• Machinery &amp; Equipment for Pharmaceutical Industry</li><li>• Plant for Pharma production</li><li>• Packaging Machinery / Materials</li><li>• Tableting &amp; Liquid filling machines</li><li>• Lab Equipment</li><li>• Analytical Instruments</li><li>• Labware</li><li>• Process Control &amp; Instrumentation</li><li>• Quality Control Equipment</li><li>• Treatment &amp; Waste Management Systems</li></ul>	<ul style="list-style-type: none"><li>• Automation &amp; IT</li><li>• Outsourced Products</li><li>• Refrigeration Cold Rooms &amp; Clean Rooms</li><li>• Raw Materials</li><li>• Bulk Drugs</li><li>• Drug Intermediates</li><li>• Excipients</li><li>• Additives</li><li>• Consultants</li><li>• Technical Services for Manufacturing of Bulk drugs &amp; Setting up new Pharma plants</li><li>• Support Services</li></ul>
