7 Reasons to Participate in the 12th Pharma Bangladesh 2026 Int'l Expo

1. The 12th Pharma Bangladesh 2026 is South Asia's leading pharmaceutical trade show, showcasing active ingredients, raw materials, machinery, packaging solutions, and allied services from across the globe. It's the ultimate platform for innovation, partnerships, and investment opportunities in Bangladesh's rapidly growing pharmaceutical industry.
2. Pharma Bangladesh is the country's largest international exhibition, driving the pharmaceutical industry's growth for over a decade and serving as the leading platform for innovation, partnerships, and global collaboration.
3. By 2026, Bangladesh's pharmaceutical industry has become the backbone of the national economy, meeting an astounding 97% of domestic demand and standing as a flagship success story, according to the Bangladesh Investment Development Authority.
4. Bangladesh's pharmaceutical industry has grown into a US\$6 billion market, meeting 98% of domestic medicinal demand while exporting to over 150 destinations worldwide. Despite importing around US\$1.3 billion worth of APIs annually, the government is aggressively prioritizing local API manufacturing to cut reliance on imports. With Asia's API market projected to expand at a 9% CAGR through 2027, Bangladesh is strategically positioned to integrate into regional supply chains—leveraging cost advantages, strong policy support, and rapidly expanding production capacity to cement its role as a rising pharmaceutical hub.

5. Bangladesh's pharmaceutical industry is exporting to over 150 countries worldwide, with significant breakthroughs in highly regulated markets such as the United States and Europe—cementing its position as a rising global powerhouse in pharmaceuticals.
6. Bangladesh's pharmaceutical market is set to grow at a rapid 15–16% CAGR between 2026 and 2030, with generic drugs maintaining over 85% market share and reinforcing the dominance of local companies. This expansion is fueled by rising healthcare demand, strong government support, accelerated API production, and expanding export opportunities, positioning Bangladesh as a powerful force in the global pharmaceutical landscape.
7. Join the 12th Pharma Bangladesh 2026 International Expo – the country's largest pharma showcase – and connect directly with potential buyers, partners, and industry leaders from across the globe.

EVENT PROFILE

After the resounding success of previous editions of 'Pharma Bangladesh', CEMS-Global USA, in collaboration with CEMS Bangladesh, proudly presents the region's leading international exhibition dedicated to the pharmaceutical sectors— "**12th Pharma Bangladesh 2026 International Expo**". This landmark event will serve as the ultimate platform for showcasing pharmaceutical raw materials, active ingredients, processing and packaging machinery, equipment, and related services essential to the growth and advancement of the pharmaceutical industry.

The "**12th Pharma Bangladesh 2026 International Expo**" will be Bangladesh's largest Pharmaceutical Machinery & Technology Exhibition, serving as a one-stop platform to highlight the most recent advancements and innovations that are shaping the future of the pharmaceutical industry. Concurrent with this event, the "17th Meditex Bangladesh 2026 International Expo" will also be held, providing greater synergy and cross-sector opportunities for stakeholders in both the pharma and medical sectors.

This edition of the Pharma Bangladesh Expo will feature and demonstrate a broad spectrum of cutting-edge machinery, equipment, and technology from around the world, designed to meet the evolving needs of Bangladesh's rapidly expanding pharmaceutical industry. As the sector grows at a remarkable pace and actively explores global markets, it is poised to become one of the country's most significant contributors to international trade revenue.

The "**12th Pharma Bangladesh 2026 International Expo**" will serve as a dynamic B2B networking platform, offering unmatched opportunities for buyers and sellers of pharmaceutical plants, machinery, and equipment. It will also provide a highly interactive space for exhibitors to generate business, showcase innovations, and engage with key decision-makers through live demonstrations, technology exhibits, and strategic dialogues—focused, high-level discussions between industry leaders, policymakers, and stakeholders aimed at addressing challenges, exploring opportunities, and aligning the sector's growth with global standards.

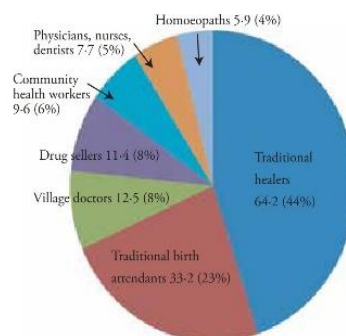

Why Bangladesh

Bangladesh has rapidly emerged as a major pharmaceutical exporting nation, with demand for medicines rising sharply in recent years and the market projected to grow at a CAGR of over 12% by 2025. With generic drugs expected to surpass 85% of total market share, local companies are firmly positioned to dominate both domestic and international markets. This strength is underpinned by cost-effective manufacturing, a skilled workforce, and strong government support through favorable policies and incentives. Bangladesh already exports to more than 150 countries, including highly regulated markets such as the United States and Europe, proving its global competitiveness. Combined with expanding API production, rising healthcare demand, and strategic integration into regional supply chains, Bangladesh offers unmatched opportunities for investors and partners seeking to tap into one of the fastest-growing pharmaceutical hubs in Asia.

IN FIGURES

Over the last decade, Bangladesh's pharmaceutical industry has grown substantially, contributing 1.83% to the country's GDP. At present, Bangladesh produces more than 450 generic drugs under 5,300 well-known brands and meets 4% of the nation's requirement for anti-cancer medications. According to the Director General of Drug Administration (DGDA), the pharmaceutical sector encompasses 3,657 registered generic allopathic drugs, 2,400 registered homeopathic drugs, 6,389 registered unani drugs, and 4,025 registered ayurvedic drugs.

Approximately 71% of pharmaceutical sales are attributed to the generic medication market. There are over 150 enterprises engaged in formulation production, with 30 of them involved in exports.

PROFILE OF EXHIBITS
